Secretary Garvin,

I am writing to you regarding the EV mandates that you are proposing to place upon the state of Delaware residents. I feel this is very wrong to push this on the people of Delaware who are happy with what they have and who know this to be very wrong. I do not see any good in making this happen. I was born and raised in Sussex County Delaware and have lived here all of my life. We always made out fine with the cars that we had. If there are residents who want the EV that is their choice, but PLEASE do not push it on those of us who do not.

Sincerely,
Emily Hocker
