We are against DNREC's push to adopt and implement California's EV Mandate. Why anyone wants to adopt regulations from the most mismanaged state in the Union is incredible. No one has thought out the short or long range problems this mandate will impose on a small state like Delaware. Its irresponsible for DNREC to impose this mandate without the Legislature discussing and fully vetting all issues involved with this radical mandate. The Legislature and Governor needs to step up and say "NO" to DNREC's overreach of authority. If this mandate is adopted, it will have an adverse effect on the State's economy and the life's of people living in Delaware resulting in personal hardships and a poorer quality of life.

We need to "STOP DNREC's OVERREACH OF AUTHORITY."

Regards,

Joanne & Dwight Herow
