Comments:

This is to register our opposition to the EV car mandate for the following reasons: 1. Personal Cost- In addition to the cost of the vehicle and the cost of batteries, etc., electric bills would increase as the vehicle would have to be charged nightly or more often; Delaware taxes would be increased to pay for additional cost to the state 2. Cost to Delaware - Many more charging stations would have to be created. State owned vehicles would have to be replaced with extremely expensive EVs 3. We oppose any additional reliance on China for necessities. These are in addition to the unforeseen costs and problems the mandate would create. I hope you will consider the wishes of the citizens of Delaware when making your decisions
