Comments:

Everyone wants clean air, but we are DELAWARE and not the State of California. Our bad air comes from Pennsylvania and they are not adopting this regulation. If you want to impliment something like this put it on a voting ballot and let the public dicide. Something like this can not be done like a light switch, it has to be overtime. Change the date to something like 2045 or 2050 if it is really necessary at all. This is happening way too fast.
