Comments:

I am AGAINST any mandate that would force residents of Delaware to purchase and drive electric only vehicles. There are many reasons..cost, charging stations cannot be put at every home, rare earth materials mined by slaves, no recycling options for these large batteries after 8-10 years of use, AND the fact that our power grid cannot possibly keep up with the demand of new homes and buildings in addition to thousands of new charging stations. I am not against electric vehicles; however, I am definitely not in favor of you taking away my ability to choose my vehicle (one which I will pay for completely —not the State of Delaware!). Please do not vote this terrible bill into law. It will be a tremendous hardship to all residents of this state.
