Comments on 2022-R-A-0011: Low Emission Vehicle Program

Name: Robert Fitzgerald

Phone: 201-232-8566

Email Address: bobfitz77@verizon.net

Organization: No

Comments:

EV cost more to make, maintain and run The minerals needed for the batteries are mined in unenvironmentally way causing way more harm to the earth than drilling for oil and gas does Then there is the issue of national security. China will control our country because they have all the minerals and make all the solar panels also Biden and the rest of the elite test will get rich while regular Americans get poor
