Comments:

Governor, Vote no for California emissions. I've been a Jeep dealer since 1958.....65 years, servicing lower Delaware, providing jobs for local family's. I think electric cars are the car of the future, fun to drive, have zero emissions. But to require this mandate (California Emissions) you will be give Delawareans a \$20,000 tax on purchasing an electric car vs a gas/Deisel model. That \$20,000 plus difference will be too much for many Delawareans to afford a new vehicle. That would result in less sales for our business, less employees needed (loss of jobs), less state revenue from Delaware doc fees and company taxes from profits. Since Delaware DNR has announced California Emissions Stelantis our Jeep manufacturer and implemented we can only inventory \$52000 EV Jeep Wrangler models. Delawareans should be able to make their own Choise, and be able to purchase a \$32000 non-EV wrangler. Thank you for your consideration, Sincerely , Terry A Megee President Megee Motors Georgetown, DE
