Comments on Docket #2023-R-F-0013 -- Proposed Wildlife Regulations Revisions

Name: Amy King

Phone: 3028938034

Email Address: thebluerockrunner@gmail.com

Organization: No

Comments:

In the section covering Non-native/Invasive Wildlife, the wording (not sure if it is intentional) says coyotes are destructive to wetland habitats. How so? Is it due to the size and fragility of Delaware's wetlands or the rapid expansion of the species specifically in Kent and Sussex? Coyotes aren't usually known to be harmful to wetlands, so I'm curious. Thank you so much for your time!
