Delaware DNREC Division of Fish and Wildlife

22m

We invite the public to participate in a virtual public hearing scheduled for December 13, 2023 at 6:00 p.m.

At the hearing, the Division will discuss proposed revisions to Delaware's wildlife regulations (7 DE Admin. Code 3900). After the hearing, the public comment period will be open through Jan. 12, 2024.

We propose to make changes to 19 subsections of the regulations that pertain to the management and conservation of wildlife including activities involving hunting, trapping, fishing, nuisance wildlife control work, and activities authorized on Division-owned lands.

For additional information, including how to join the hearing, and how you can comment on the proposed changes: <https://dnrec.alpha.delaware.gov/.../public-hearing.../>
