Comments:

I do not think Offshore wind farms should be allowed off the coast of MD/DE. The negative effects caused by these structures does not outweigh any benefit produced. The impact to Sea Life alone , should be cause for concern. The impact on Commercial Fishing will be devastating. The impact to Sport fishing will be devastating. Tearing up the seafloor and building turbines that contain gear oil which can leak into the ocean is absurd. I urge DNREC to deny permits needed to construct any project related to Offshore Wind. Respectfully, Albert Simpson
