Comments:

I am fully in support of the US Wind offshore wind project that is requesting permits to bring cables ashore at 3R's Beach in Delaware. I fully support DNREC issuing required permits to run cables to connect the wind-generated power to the electrical grid. Please ensure that work is done responsibly and does not cause significant impact to horseshoe crab or bird nesting in the appropriate seasons. The temporary impacts from construction are far outweighed by the benefits of clean wind power. Thank you for supporting this permitting process.
