Comments:

DENREC cannot seem to get their act together to safeguard existing critical infrastructure, IE.. stabilizing north side of Indian River Inlet Bridge. Why as citizens of Delaware should we task and trust DENREC with the critical job of approving and monitoring off shore high voltage cables coming ashore? I am firmly against the high voltage cables coming ashore ANYWHERE on our Delaware coast.... As I have stated at multiple meetings... this energy is for Maryland, put the unproven, irresponsible project off the Maryland coast and let them clean up the abysmal failure that is sure to come our way.
