Comments:

Please, please do NOT approve this project!!! Life is fine here without needing to see more DEAD animals washing up on our shores and without seeing ugly ginormous fans when we look at the ocean. Is it worth life???? As a resident and tax payer, I strongly encourage you to say NO. We have survived and will survive without wind power. This is not a political issue for me but one of integrity. Are we getting kick backs from US Wind? Is this why we are considering this ugly project? Any time we insert ourselves into nature, it does not end up well. You will be responsible for the deaths of sea life and the decrease in visitors to our shores. Who wants to look at fans???? And, who wants to see more dolphin and whale carcasses on our shores? This will definitely happen. Do you want to explain to your grandchildren that this is your fault? I will sell my property if this is approved.
