Organization: No

Comments:

At the risk of alienating fellow neighbors located near 3Rs, I support this. If remember in the 70s everyone bad mouthed alternate energy, claiming it too expensive, among other things. . If we started with the infrastructure then, it'd no longer be as expensive. Renewable. Energy. Would solve a lot of problems. I'm not sure who's behind this, who's behind those fighting this and similar alternatives, but I think we need to try to use fewer petroleum/fossil fuels, even if it inconveniences us. For the next generations.
