Organization: No. I am an Ocean View resident.

Comments:

As a resident of and frequented if the 3R's beach, we are very concerned with the US Wind prop. The negative impacts on the environment, unknown effects on our marine life, the safety issues, noise, heating of the water temp, the lights and disruption to the scenery and calm of the ocean, has made me believe the project is more damaging than we're being told. Further the track record in other ocean areas is troublesome, the effectiveness in the green agenda is clearly questionable, and the need to use oil etc makes this project ludicrous. And, the benefits to Delaware are virtually non existent. It's a MD project and should be serviced through MD property, not Delaware. please please consider vetoing this proposition!
