Organization:

### Comments:

Please stop the madness with the wind turbines. You all jumped on something without full facts. There is danger to sea life and does cause issues with our water when there are issues with turbines. If this project is suppose to benefit OC Maryland then do it in OC. I don't want to see these turbines offshore while enjoying the beach. And yes you will be able to see them. Delawareans get no benefit only the damage to our beaches and being liable for costs. Since it is suppose to be for Maryland's benefit do it in Maryland!! Plus really haven't gotten any straight answers about the project. Everyone just evades questions or deflects with not answering what was asked or are very vague. Something just not right.
