Comments on Docket #2024-P-MULTI-0007 -- US Wind Project

Name: Doug Cooke
Phone: 2405065627
Email Address: drcofdrn@aol.com
Organization: No

Comments:

Beach Cove was last dredged sometime in 1983, but the channels have not been tended to since then. The communities surrounding Beach Cove have multiple marinas and are very concerned with the US Wind projects coming on shore that the current issues with navigation in the south east part of the Indian River Bay and Beach Cove will get only worse. The Bethany Volunteer Fire Department uses the boat ramp!. Maintaining the navigation of these channels is imperative. Please research and address in advance the impact of the US Wind Cable installation in the Indian River Bay on navigation in the south east corner and Beach Cove. Thank you.
