Comments on Docket #2024-P-MULTI-0007 -- US Wind Project

Name: Ellen Collins

Phone: 7032163199

Email Address: wavewaltz@aol.com

Organization: Tower Shores

Comments:

I am opposed to the proposed US Wind Project which would place cables in the area adjacent to our community. There does not appear to be any provision for safety concerns, and US Wind has no prior experience in this rea. There is a huge concern regarding public safety emergencies. There is concern regarding the impact on our beaches and the life of our dunes. There is a huge concern regarding the environmental impact of this project, as the area is home to many marine species. Sufficient research has not been done to assure that this is a safe and necessary project.
