Comments on Docket #2024-P-MULTI-0007 -- US Wind Project

Name: Eugene Hansen
Phone: +14104995887
Email Address: huntz53@verizon.net
Organization: No

Comments:

These intermittent windmills produce electricity at three times the cost of onshore windmills. Intermittent sources of electricity require 100% back when the wind doesn't blow. Offshore windmills would not exist in a free market without taxpayer and ratepayers subsidies. They are inefficient, expensive, and ugly enough to destroy property values and tourism.
