Comments:

My wife and I live in Ocean View. We are STRONGLY OPPOSED to approving state permits to U.S. Wind, Inc. for an offshore wind farm that will be visible from Bethany Beach and the 3Rs beach areas. This project will not reduce the need for any on shore conventional power stations. It is totally unreliable and has not been proven to safely exist in an ocean environment. The visual and environmental impact of this project is irreversibly destructive. There are far better solutions like the new nuclear model stations that would not only solve the energy needs but would be much more efficient, safe and reliable. Garret and Jane King Ocean View DE
