### Comments:

I am wondering about the safety of these huge turbines. Watching other turbine failures, can the Federal Government say with 100 percent certainty, these are safe for our Beaches? This appears the people of Delaware have no say in this! What the Federal Government says is the final word! The Government offers some funding for the turbines if you put them off our shore. It seems to me if you do not do this, there will be no more funding for other issues. Let the people decide! Thank You for time!
