Subject: Wind turbines

Please don't bring the wind turbines to our coast. There are too many variables that are not good for the environment, marine life, and our bank accounts. Pure waste of money. Look at the places that have them. All I see, hear, read, and watch has nothing good to say about them. I have never gotten into politics until now 2023. This world needs to learn to conserve and protect the other species that we share this planet with. Greed for the dollar should not guide us. Please, stop the development of the wind turbines! I live in Millville Delaware and I have been stressing about this ever since it was brought to my attention. Dolphins have been my favorite animal since I was 5 years old and it kills me to see that humans are not protecting them anymore because they get paid not to.
