Organization: Myself and the community

Comments:

I oppose the Wind Project there has not been enough solid evidence this is truly effective, This will effect sea life that has been proving, but we are ignore it for the money. always follow the money. Plus it will not look attractive to see this big ugly windmills . What happens when they do not work just rust out at sea. Please really think about this long term effects. Build a Nuclear instead the new ones are more safe and effective. Do not waste our money on this Project of failure. Regards, Kathleen,
