Comments:

Regarding Docket #2024-P-MULTI-0007 (U.S. Wind Permitting Requests and Delaware Environmental Impacts) We are firmly opposed to DNREC granting any leases/permits to US Wind for underground cables under the Delaware beaches and through the Indian River Bay. This project would impact the local environment and community in a very negative manner. It is not in keeping with the mission and values of DNREC, a public agency charged with protecting our fragile coastal environment.
