**Subject:** Wind Farm

Hello,

I'm a Fenwick permanent resident. My family helped create Camp Meeting in 1895 and built many of the first houses here. We love Fenwick and our beaches!

I have been asking my neighbors about the wind farm and have discovered 100% SUPPORT of the wind farms. Our current Town Council keeps saying that no one supports them in Fenwick but the truth is only those council members and a few others do not support the wind farm. The Council has NEVER surveyed the residents about this. The rest of us understand how we need to do everything possible to get off Big Oil and use renewable resources if we are to fight catastrophic climate change.

As I sit in my oceanfront home, I am only too aware that we are on the frontline of rising seas levels and if we don't act now, Fenwick will be underwater sooner than we can even imagine.

I applaud DREC and the State of Delaware for doing the right thing and leading the fight!

Thank you,  
Dr. Kimberly McCabe Grimes

P.S. As I am sure that you are aware, our residents, along with others, have been receiving not just misinformation about the windmills but absolute LIES about it. Unfortunately this has made some people fearful.
