Comments:

Please abandon any agreements with the US Wind Project. Our communities will be negatively impacted in both the natural beauty, and natural habitat. Migrating birds, right (and other) whales migration paths, horseshoe crab migration and mating paths, and numerous other marine and aquatic species will be adversely affected by this project. Property values will also decline as tourism declines. Delaware taxpayers should not shoulder the negative impact of ugly, off shore turbines for the sake of Maryland power. Please abandon this project.
