Comments on Docket #2024-P-MULTI-0007 -- US Wind Project

Name: Matthew Lynch

Phone: 443-253-1610

Email Address: mlynch1610@comcast.net

Organization: No

Comments:

I am against the US Wind project off the coast of Delaware and coming aground at 3R's beach and the Indian River Inlet. This project will cause irreparable harm to the environment, marine life, both the commercial and recreational fishing industries as well as tourism which is a major economic driver here in Sussex County. Projects of this nature have already caused major problems in Nantucket/Cape Code with oil and sludge being released into the ocean by leaking turbines. Marine mammals have been showing up dead along our coastline. What happens when the turbines fail, or fall. The wreckage and debris will become hazards to our boating and shipping. The companies will file bankruptcy and there will be no one responsible for cleaning up the debris or our environment. This project should be cancelled. If Maryland wants the project, let Maryland keep it on their land. I vote no and will vote against any politician that supports this project.
