Comments:

I support this wind turbine project. In particular, I do not think the wind turbines would disturb the beautiful vistas. We have here in Delmarva. I am originally from Vermont, where we now have these turbines on some hillside. Some Vermonters originally worried that the turbines would be ugly or ruin the landscape or hurt tourism. But most wanted them it turns out is pretty much uniform support for them once they were in place. I think the turbines are pretty. And a cheerful reminder of the production of alternative energy. So I think this is a great project as someone who lives along the coast I look forward to seeing more turbines someday around here. Thank you for considering my view.
