### Comments:

Dear Sirs, I would vote against any proposed wind farm project off our immediate coast. I am not convinced of the cost efficiency of such power, neither the gain to our environment . I am concerned that such a project would be an eyesore off our coast, damage marine life and shipping, and result in more expensive power to consumers. I am also wary of what happens when the windmills fail, and the manufacturer is way off in Europe and has moved on to the next project. Sincerely Peter Keeble
