Comments on Docket #2024-P-MULTI-0007 -- US Wind Project

Name: Pradeep Nayak

Phone: 703-255-5315

Email Address: pnayak1@aol.com

Organization: No

### Comments:

To Whom It May Concern: I am expressing my strong opposition to the wind project offshore with cables coming onshore north of Bethany Beach. This region is currently utilized by a very large full-time local residents as well as vacationers from the DC and Philadelphia metropolitan area, along with many Delaware residents. In a push toward using wind energy to supplant fossil fuels, I believe we are creating monstrous structures that will affect the environment in other unintended ways. Not only are such structures visually disruptive, but also, there will be harm to the wildlife, including the birds and underwater life. The buried cables themselves will upset the ecosystem in a way that will be irreparable. The profits gained by the wind company should not be earned at the expense of local residents, whose quality of life and property values will be irreversibly and grievously harmed.
