I would like to go on record saying I am very much opposed to the off shore wind project.

Surely there are other alternatives.

Among other issues, I feel that it would:

Negatively effect marine life

Negatively effect the marine industry

Negatively effect the value of property

Negatively effect birds and bird migration

I reside for almost half of the year in Fenwick Island. My address is 1704 Coastal Highway.

I appreciate your willingness to accept feedback. Please do not let this go through.
