**Subject:** wind project

I own a home in Delaware and pay taxes. I am not in support of the wind farm project off the coast. This will disturb our ocean waters when we are already dealing with environmental issues and climate changes to our oceans and air. These windmills require maintenance and money and I don't feel that it is beneficial to anyone other than the company who wants to install them. We can come up with other energy efficient ways besides disturbing our environment and looking at ugly windmills across the water.

Thank you for considering my comments,  
Tamra Peroni
