**Re: US Wind, Inc.  
Maryland Offshore Wind Project  
Individual Permit Application**

To Whom it May Concern,

US Wind, Inc. (US Wind) is pleased to submit the enclosed application to the U.S. Army Corps of Engineers for the Maryland Offshore Wind Project (the Project). The Project is an offshore wind energy project of up to approximately 2 gigawatts of nameplate capacity within OCS-A 0490 (the Lease), a Lease area of approximately 80,000 acres located approximately 18.5 km (11.5 miles) off the coast of Maryland on the Outer Continental Shelf. US Wind obtained the Lease in 2014 when the company won an auction for two leases from the Bureau of Ocean Energy Management (BOEM) which in 2018 were combined into the Lease.

US Wind looks forward to review of the application. Questions should be directed to me by email at [L.jodziewicz@uswindinc.com](mailto:L.jodziewicz@uswindinc.com) or by phone at (410) 340-9428.

Sincerely,

A handwritten signature in cursive script, appearing to read "Laurie Jodziewicz".

Laurie Jodziewicz  
Senior Director of Environmental Affairs  
US Wind
