Comments:

I vehemently oppose the building of luxury housing in Yorklyn. The way it was handled was sneaky, it rids the area of all of what the long time residents love about it, it will harm the earth, and we don't need any more luxury homes! This is clearly a way to make money that does not center the citizens of the area and does not center the earth. These decisions will lead to environmental catastrophes as well as harm the local economy. You are pushing people out of their homes and holding the current residents to strict laws yet allow these developers to do anything and everything just to make a buck. It's disgusting and disheartening. To tear down so many old growth trees without proper notification or allowing the community to voice concerns about it is a deed that can never be undone and it is unforgivable. The DNREC knows better than to do this but has let itself become corrupt. Absolutely abhorrent behavior.
