Comments:

I live on Old Public Road and would like to voice my opposition to the Quarry Walk Project In Yorklyn DE in particular the allowance of installation of numerous sewage holding tanks with sewage removal trucks coming 3 times a week to empty these tanks. These trucks will add even more traffic to the increase of traffic as a result of the 61 townhouses to be built on the site. In addition, I foresee numerous cars "cutting through" on both the private roads; Hockessin Hills Rd and Spring House Lane to access Old Public Rd and thereby accessing Benge Road. This entire project was started without any notice to the surrounding neighborhood. We found out about it when suddenly a huge number of trees were chopped down. And now, we have found out that this project is allowed to proceed without having to comply with the New Castle County Unified Development Code.. We have to wonder how this has been allowed to happen. But it cannot be allowed to continue.
