Organization: No

Comments:

This whole project has been shady from the start. There have been no studies done recently in regards to the impact the traffic will have. Our roads are falling apart as it is. There are trees marked everywhere to be cut down before they fall down. Again nothing done. Now you want to add trucks that will be traveling the roads to dispose of the waste. If this a DNREC project when will they be taking care of the environment around us. Drake Cattermole took down 10 acres of trees in a blink of an eye. No one knew this was coming. It's time someone in our government stepped up and did the right thing
