Comments:

As a member of Yorklyn's community, I'm disturbed that this is being considered and I will take it as a pathetic failure on the part of DNREC if Quarry Walk is able to move forward with it. The people and wildlife of Yorklyn are not responsible for the negligence of the idiots in charge of Quarry Walk. It's simple - if Quarry Walk wants to develop this land for profit, then Quarry Walk needs to build the pump house, and Quarry Walk needs pay for the pump house.
