Comments:

I am horrified that the trees along Yorklyn Road were unnecessarily cut down. They provided all kinds of good things for the wildlife. I am totally opposed to the project that would pump 18,000 gallons of wastewater up the hill on the road every two days. The road is in bad condition as it is and that's going to make it worse. And the fact that they want to build houses is terrible. We don't need more houses around here. Please don't let this project go through. I thought Drake Catamore was a nice guy, but I guess not.
