Subject: North Fish

I am opposed North Fish USA being in a residential zone. I don't want my house nor my area smelling like a fishery.

I am against this number 2 reason because of the time restraint. This has taken place too fast and I feel like some other action should have been done before neighbor made this aware. Announcing it a paper that doesn't reach all residents is unethical.

Not to mention we have already missed the public hearing. The legal notice should be was revisited for ALL RESIDENTS not just in weekly newsletter.

This was done too fast.

Again I disagree - please acknowledge receipt of this email

Respectfully yours

Deb Vanderhorst
