Comments on Docket #2025-P-CCE-0012 -- North Fish Coastal Zone Permit

Name: Next door Resident

Phone:

Email Address:

Organization:

Comments:

Hello, I'm very concerned by the article I read in the paper about a fish processing facility coming next door to our neighborhood. I've looked into the negative impacts a facility like this does to the environment and we'll be breathing this up now! This is not a place for this type of facility...next to a residential neighborhood. I'm very upset this has gotten snuck through without being in the local papers until now. It seems this is already happening with the building setup?!
