Comments on Docket #2025-P-CCE-0012 -- North Fish Coastal Zone Permit

Name: Shawn Carroll

Phone: 302 544 6464

Email Address: sfcarroll61@yahoo.com

Organization: No, I represent myself and family as residents in Washington Park, New Castle, DE 19720

Comments:

I do protest any permitting of a Fish Processing Plant which is in close proximity to residential developments. The adverse odor, traffic, and strain on infrastructure such as water usage from the City of New Castle water supply will adversely affect the value of our properties, the enjoyment of our properties. There are more suitable locations which are not located near residential property which could be used for such a development. The potential for long term harm, both financial and aesthetic enjoyment of our properties due to odors that will be emitted from the facility far out weigh any economic impact on the City of New Castle financially. This is not simply going to smell like my neighbor is barbequing. Please consider the long term affect on the citizens of the City of New Castle and the neighboring residential properties in considering this permit. Please do not allow such a family oriented city to be overtaken by a business that will ruin what this community has for benefits today. I appreciate the opportunity to speak against this proposal.
