Subject: Request for information (Soil Report)_ CMR for SRRF Permit Renewal)

Hi Russell,

Based on the preliminary review of Soil Report submitted as a requirement for the Compliance Monitoring Report (CMR) for SRRF, I have listed the request for additional information in accordance Section 6.5.4.3.1.1.7 of 7 Del. Admin. C. §7101

1. Provide the results (i.e., Figures or Tables) from the laboratory analysis of soil data from the period 2021 to 2024.
2. Although there is limited data, determine approximate remaining site life based on the approximate site life calculated at the time of design and the current levels of potential land limiting constituents (Section 6.5.4.3.1.1.7.2).

Please note that this request is based on the review of Soil Report. Other comments and requests for additional information regarding Hydrogeological Suitability Report and Engineering/Operation Report will be issued under separate covers (if needed).

If you have any questions regarding this request for addition information, please feel free to contact me.

Best,

Sunendra Joshi, Ph.D.
