1 P R O C E E D I N G S

2 THE HEARING OFFICER: You're ready,
3 right, Carlo?

4 THE REPORTER: I'm ready. Thank you.

5 THE HEARING OFFICER: All right. I'm
6 going to go ahead and let the guest in. And then as
7 soon as six o'clock clicks, I will go ahead and bang
8 my gavel. All right. Okay. Let me --

9 Good evening. For those of you that
10 are in attendance virtually, welcome. It is 6 p.m.
11 and we're going to go ahead and begin this formal
12 proceeding tonight.

13 Thank you for taking your time out of
14 your busy schedules to connect with us today. The
15 date is Wednesday, September 23, 2026, and we are here
16 today to provide the formal platform for DNREC to
17 conduct its virtual public hearing regarding a
18 proposed new regulation.

19 This one is going to be concerning the
20 issuance of waivers of net metering limits for
21 agricultural use customers. The citation for this,
22 should it be promulgated finally, will be found at
23 7 Delaware Administrative Code 2106.

24 And for those of you that may not know

1 who I am or not have seen me before, my name is Lisa
2 Vest, and Denmark Secretary Patterson has appointed me
3 to serve as the hearing officer for tonight's
4 proceedings. So again, welcome.

5 At the conclusion of these introductory
6 remarks, I will be turning the floor over to
7 department personnel. There is a brief presentation
8 that they're going to be offering for incorporation
9 into the hearing record that's being generated in this
10 matter.

11 The presentation along with a bunch of
12 other exhibits that will also be added into the record
13 later on, they'll all be posted on the hearing webpage
14 that is dedicated to this matter. So I would
15 encourage everybody to go back and review it in detail
16 on your own following tonight's proceedings.

17 There's a lot of information with
18 regard to what this regulation is and why the
19 department is doing it, and so again, I would
20 encourage everybody to go check that out.

21 We do have a court reporter here with
22 us this evening. This matter is being recorded. As I
23 said, we're building the hearing record with this
24 hearing.

1 The court reporter will prepare a
2 verbatim transcript of the proceedings tonight
3 pursuant to DNREC's statutory obligation to do so.

4 And as always, that transcript will be
5 posted on the hearing page along with all of the other
6 documentation that I've already mentioned. And we'll
7 get that up and posted as soon as we receive it from
8 the court reporter, which will probably be early next
9 week.

10 Before we go any further, it's
11 important to set the parameters for tonight's
12 proceeding.

13 As I've mentioned, the purpose of the
14 hearing tonight is to build the record with regard to
15 this proposed promulgation, and by providing the
16 formal legal platform for the public to learn about
17 this new regulation and to gather any kind of
18 additional written comment concerning the same from
19 members of the public that might wish to do so.

20 Public comments regarding DNREC's
21 regulatory process are very important to the
22 department. Those comments, when they are received,
23 are incorporated into the hearing record.

24 While all comments are appreciated, I

1 should note that comments must be specifically
2 regarding the proposed new regulation that you're
3 going to be hearing about tonight.

4 I also want to make sure that everyone
5 realizes that only comments submitted directly to
6 DNREC and entered by the hearing officer into the
7 record will be posted on the hearing page dedicated to
8 this matter.

9 Many times, you see local groups get
10 involved with such matters. Don't be sending comments
11 to anybody but DNREC. You know, we have no control
12 over any third-party organizations and we do not
13 partner with third-party organizations. So please, if
14 you wish, submit comments to DNREC directly.

15 There is a mechanism in our hearing
16 protocols that allows members of the public to offer
17 comment live at the time of the hearing in order to be
18 recognized during the hearing. Members of the public
19 have to pre-register to do so, and for this evening,
20 we did not have any members of the public
21 pre-register.

22 So even though there is not going to be
23 any live comment offered tonight, again, the record is
24 not going to close at the conclusion of tonight's

1 proceedings. It's going to remain open and people are
2 encouraged very much so to provide written comments to
3 the department.

4 The record is going to remain open
5 through October 8th, and all comment is considered
6 equal. There is no difference in its value or its
7 weight between whether it was offered live tonight or
8 whether it comes in written.

9 But as long as it's received on or
10 before October 8th, it'll be incorporated into the
11 record and the secretary will give it consideration
12 prior to making a final determination in this matter.

13 The other good part about written
14 comment is when you're offering live comment at the
15 hearing, you're limited to three minutes in which to
16 offer the comment. There's no limit in the amount of
17 written comment that you can offer should you choose
18 to do so. So again, feel free as long as it's in by
19 October 8th.

20 Lastly, there are some legal protocols
21 that apply to all DNREC public hearings. I'm just
22 going to go through them very briefly right now before
23 we begin the presentation.

24 As I've mentioned before, all comment

1 received must be solely related to the subject matter
2 of tonight's hearing.

3 Secondly, in order to ensure that
4 everyone who wishes to offer comment for the
5 secretary's consideration is accommodated, the record
6 in this matter shall remain open for receipt of
7 comment through October 8, 2026.

8 Next, there is only one authentic
9 record of this proceeding, and it is the official
10 court reporter's verbatim transcript. And again, we
11 will post that on the hearing page as soon as it is
12 received from Veritext.

13 Next, the statutory purpose of this
14 hearing tonight is to build the record with regard to
15 this proposed new regulation.

16 The record, which consists of the
17 transcript of the hearing tonight, any written
18 comments that may be received from the public from now
19 up through October 8th, all exhibits that you'll see
20 getting entered into the record by the department, and
21 eventually, my hearing officer's reports summarizing
22 the proceedings, will be reviewed by the secretary
23 prior to any finalization of this new regulation.

24 Lastly, it is important to note that no

1 decision about this matter has already been made, nor
2 is any decision going to be made tonight.

3 Again, we are here just to vet this
4 matter fully to the public, and the public is always
5 welcome to attend our hearing so that they can learn
6 more about this prior to making any comments.

7 That being said, I am going to turn it
8 over to Janet Redman. She is with the Division of
9 Climate Coastal and Energy, and she is going to be
10 offering the department's brief presentation tonight.

11 So, Janet, when you're ready, take it
12 away.

13 MS. REDMAN: Okay. Okay. Thank you,
14 Lisa.

15 And to those in attendance, thank you
16 for joining us tonight.

17 I -- and I do have a brief presentation
18 on this, and I'm going to start by a review of the
19 regulatory statute and the history here.

20 So the purpose of our regulation is to
21 provide guidance to agricultural-use customers wishing
22 to install a customer-sited electric generation
23 facility greater than 150 kilowatts under Delaware's
24 net metering statute.

1 This statute requires the department to
2 promulgate regulations for waivers of the 150 kilowatt
3 limit for agricultural-use customers that receive
4 electric distribution service under a residential
5 electric service tariff.

6 The proposed regulation provides a
7 process for an impacted use -- impacted customer to
8 submit a waiver request to DNREC and the process for
9 appeals if the customer does not agree with the
10 initial decision issued on the waiver request.

11 So currently at the moment, an
12 agricultural-use customer who receives electric
13 distribution services from Delmarva Power and Light,
14 or DPL, cannot have a customer-sited electric
15 generation facility greater than 150 kilowatts.

16 Systems that are larger than 150
17 kilowatts are evaluated by DNREC. So I wanted to give
18 the definition of net metering for those who may not
19 know.

20 Net metering is also called Net Energy
21 Metering, and it is an energy billing mechanism that
22 allows customers who generate their own electricity,
23 usually through solar panels, to measure how much they
24 generate versus how much they use.

1 Where generation exceeds usage, the
2 customer is credited the amount of the excess by the
3 electric company. Then, under certain conditions like
4 a cloudy day that doesn't let the customer generate
5 all of the energy they need, they can go to the grid
6 and receive energy from it equal to their credit and
7 pay for anything above -- any usage above that.

8 So it has become very popular as a way
9 for many customers to make rooftop solar affordable.
10 And the next slide is just a visual to show very
11 briefly from the customer side through the utility
12 side how this works.

13 So a customer may have solar panels on
14 their home, which convert energy from the sun into DC
15 current or direct current. That electricity will
16 power the home first, and any power above what the
17 home would need is sent to the distribution grid.

18 So it will encounter inverters there
19 that convert DC into alternating current electricity,
20 which is what your home or business and the
21 distribution system of the utility use.

22 There's a monitoring device to measure
23 how much of electricity you've used and how much
24 excess generation you've sent to the grid.

1 And what net metering does is it allows
2 the excess solar energy to be exported back to the
3 grid on a one-to-one offset. Meaning every 1
4 kilowatt-hour sent to the grid will be offset against
5 1 kilowatt-hour used from the grid.

6 So we've -- this is a list of all of
7 the milestones along the way with this regulation.
8 I'm just going to jump down to where we are today,
9 which is September 23rd, holding our public hearing.

10 As Lisa mentioned earlier, public
11 comment period is open through October 8th. And then
12 depending, you know, as long as everything is smooth
13 there, by November 11th of 2026, the regulation should
14 become final.

15 I want to tell you the process here.
16 So first of all, you -- a customer would obtain the
17 waiver request from the DNREC website, and I'll show
18 you this waiver in the next slide.

19 Complete the waiver, submit the form
20 and required documents to DNREC state energy office
21 where your submission will be reviewed. If we need
22 additional information, we'll reach out and get that
23 from you. And finally, receive a decision from the
24 DNREC State Energy Office.

1 Here is our draft of a Waiver Request
2 Form. We have not quite finalized it yet, but it's
3 going to look very, very similar to this. But it
4 won't be on our website until it becomes an official
5 regulation.

6 So I'm not going to read through this,
7 but you can see, you know, it's just requesting the
8 basic information necessary, the type of energy being
9 used: solar, wind, hydropower, et cetera.

10 We get into the system size,
11 consumption. Why is this request needed? Why do you
12 need an oversized system? A justification for that,
13 and a couple of attachments may be required like your
14 recent electric utility bill. Once it's signed and
15 dated, it should be sent back to the DNREC energy
16 office.

17 And in the event of appeals, and -- and
18 this is a standardized process. So if the applicant
19 is denied and does not like that decision, they can
20 appeal to the Secretary of DNREC. And then if the
21 secretary denies, they can appeal to the Environmental
22 Appeals Board. And again, this is a standardized
23 process for us.

24 For exhibits, and all of these can be

1 found on the hearing page for this regulation. So
2 they're all pretty much standardized documents.

3 And I just wanted to point out that we
4 have published this -- the public hearing notice in
5 Wilmington News Journal and in the Delaware State
6 News.

7 THE HEARING OFFICER: Okay, Janet. I
8 appreciate that. That was a very informative
9 presentation there.

10 A little housekeeping for the benefit
11 of the hearing record. Are the exhibits that are
12 listed on the slide being shown now the same as the
13 ones that have been posted on the hearing page?

14 MS. REDMAN: They are, with the
15 exception of this presentation, which is -- is on the
16 hearing page now too.

17 THE HEARING OFFICER: Excellent. And
18 none of those have been changed or altered in any way
19 since their posting; correct?

20 MS. REDMAN: Correct.

21 THE HEARING OFFICER: All right. Let
22 the record reflect that the department's exhibits as
23 displayed here in this presentation are the same as
24 those posted on the hearing page and they are hereby

1 incorporated into the formal hearing record.

2 (Exhibits 1 through 12 were marked for
3 identification.)

4 THE HEARING OFFICER: Does the
5 department have anything further it wishes to offer at
6 this time?

7 MS. REDMAN: We do not.

8 THE HEARING OFFICER: Excellent. Thank
9 you very much. Janet, if you would, before you step
10 down so to speak, could you forward to that last
11 slide? Thank you.

12 Okay. Normally what we would do at
13 this point is that we would turn the floor over to
14 comment.

15 As I mentioned at the beginning of
16 these proceedings, DNREC does have a protocol whereby
17 members of the public can sign up and get on the list
18 to be recognized and offer live comment. That ability
19 starts with the minute that the public notice goes
20 live and it goes all the way up until noon on the day
21 of the hearing.

22 In this particular matter, we did not
23 have anybody pre-register. So as I mentioned at the
24 beginning of tonight's hearing, there will be no live

1 comment offered, but that's okay because there's still
2 a variety of ways to get your comments into DNREC.
3 And so as we close tonight, I am going to just make
4 sure that everybody is aware of that.

5 As I previously stated, the record does
6 remain open for acceptance of comment concerning this
7 new regulation through October 8, 2026. All written
8 comments received by the department between now and
9 October 8th will be posted on that webpage so everyone
10 can see the record as it's being generated. As that
11 slide indicated, there are a couple different ways
12 that you can offer comment.

13 Comment can be submitted through a
14 comment form link on the hearing page via email to
15 DNRECHearingComments@delaware.gov or via the good old
16 United States Postal Service at the physical address
17 for DNREC listed on both the hearing page and on the
18 public notice that has already been published in this
19 matter.

20 It is important to note that DNREC does
21 not accept written comment submitted through the use
22 of standard social media platforms such as Twitter or
23 X, Facebook, YouTube, or standardized text messaging.
24 It must be written. But of course, if there is any

1 written comment that wishes to come in, by all means
2 please do so. As long as it comes in by October 8th,
3 we are good.

4 Lastly, as I close, we want to make
5 sure that people realize that the formal hearing
6 tonight acts as a mechanism to enable the department
7 to thoroughly vet this proposed new regulation to the
8 public, and most importantly, to let the public know
9 all the various ways that they can offer comment.

10 Should there be any questions regarding
11 any of the information, you can certainly contact the
12 Division of Climate Coastal and Energy. Janet is here
13 to serve.

14 And again, any comment that comes in,
15 please get it to us on or before October 8th. And as
16 soon as we get it, we will get it up on the website.

17 And that's about all that we have
18 tonight. I want to thank everybody for coming out and
19 sharing their busy day with us. This meeting is
20 hereby adjourned.

21 (Whereupon, at 6:18 p.m., the
22 proceeding was concluded.)
23
24

CERTIFICATE

I, CARLO FLORIO, the officer before whom the foregoing proceedings were taken, do hereby certify that any witness(es) in the foregoing proceedings, prior to testifying, were duly sworn; that the proceedings were recorded by me and thereafter reduced to typewriting by a qualified transcriptionist; that said digital audio recording of said proceedings are a true and accurate record to the best of my knowledge, skills, and ability; that I am neither counsel for, related to, nor employed by any of the parties to the action in which this was taken; and, further, that I am not a relative or employee of any counsel or attorney employed by the parties hereto, nor financially or otherwise interested in the outcome of this action.
