Comments:

As an avid beach goer and drive on resident of Delaware. I am asking you please not to restrict beach access to only active fishing. As a family with young children it is not always possible to be “actively” fishing by your definition. Families should be able to join the fantastic drive-on beach access without the strict guidelines to be actively fishing entire time on the beach. I enjoy fishing as much as the next beach goer but family life dictates I can’t be active the entire time in beach. Many families enjoy our great beaches for drive-on and should t be restricted only to active fishing. The beaches are too big of an attraction to restrict to active fishers only which make up a small percentage of those who utilize the beach.
