### Comments:

Regarding the new regulations Delaware DNR is trying to pass! I think should not happen deploying bait from a kayak poses no danger to anyone or swimmers they do not get entangled in the lines that's a few hundred yards off the beach no one is swimming there ! Using a kayak or canoe to deploy Baits off the beach of Delaware has been going on for decades now ! all this comes down to is a few people do not like the activity! It's a fishing beach that's what it is for ! this is nothing but a over reach of DNR !
