My comments regarding proposed amendments to the DE State Parks regulations (Docket #2025-R-P-0017)

Regarding electric bicycles:

My comments regarding proposed amendments to the DE State Parks regulations (Docket #2025-R-P-0017)

Regarding electric bicycles:

My family frequently walks and rides traditional bikes on Delaware state park trails and has done so for many years. We want to continue to feel safe using these trails now that electric bikes are using them with limited regulations. I support the proposed changes for electric bicycles, to establish clear boundaries for electric bicycles which explicitly regulate eBike classes on state park paths capping motorized assistance at 20 mph. New Jersey recently implemented strict new e-bike regulations that Delaware should consider.

Regarding a ban on reselling reservations:

Over the last five years, it has become increasingly difficult to get Delaware State Park camping reservations. For many families camping is still one of the few affordable vacations. This affordably can only continue with added regulations to stop individuals or companies using automated bots to scoop up high-demand reservation dates. I support updated regulations on reselling reservations, to formally codify anti-scalping rules into state law adding specific language to penalize violators by fines, to permanently ban accounts, and to revoke park privileges for anyone caught selling state park access for a profit.
