Comments:

As a legal and responsible shark fisherman these regulations and laws coming out for the ban of kayaking or paddling bait out really hurts our sport and passion when we are doing everything legally especially a lot of the other guys. There's only a select few that don't know what they're doing and we report it everytime we see it. And after all this is a natural resource idk how you can be taking it away when it's not bothering or harming anyone else. And the fact that you thinks it brings sharks in that don't normally come here they are always off the beach even in 6 inches if water they will chase bait all the way up to the shore. So please take these comments into consideration and do what is right for the people.
