DRAFT EMAIL:

Dear RGGI stakeholders --

On June 25, 2025, the RGGI participating states released the [updated Model Rule](#) and concluded the regional process of [RGGI program review](#). Delaware [is beginning its state-specific process](#) to amend our regulation (7 DE Admin C 1147).

Since 2009, Delaware and nine other states have implemented a regional program to reduce CO2 emissions; known as the Regional Greenhouse Gas Initiative (RGGI). In 2025, Delaware and other participating states finalized revisions to the RGGI program. The purpose of this action is to amend 7 DE Admin. Code 1147 to reflect these revisions. The proposed amendments to 1147 will include an adjustment in Delaware's portion of the regional cap beginning in 2027-2037; replacing Emissions Containment Reserve with increased minimum reserve price; amending the quantity of allowances in the Cost Containment Reserve; adding an additional Cost Containment Reserve; updating the regional base CO2 allowance amount; removing Offsets from RGGI design beginning in 2027 and other minor program adjustments.

As part of our process, DNREC will establish a review committee to help tailor the [RGGI Model Rule](#) to Delaware. The review committee will be made up of DNREC personal, persons with environmental interests, and our RGGI Power Plant owners and operators. You or a designee are cordially invited to participate as a member of this committee.

At this time we anticipate holding this meeting on March 26, 2026. The location is:

March 26, 2026 10 am DAQ New Castle offices at 715 Grantham Lane

Additional meetings are not anticipated at this time, but may be necessary. If you participate, you are encouraged to attend all meetings, but in the event you are unable to attend all of the meetings, or are unable to participate at all, meeting minutes and other information will be available on our [regulation development website](#) to keep you up-to-speed.

Also, if you are unable to attend please consider sending an alternate or invite others who might be interested in this program.

If you have any questions please give me a call at [302.739.9402](tel:302.739.9402). I appreciate your time and look forward to working with you on this important issue.
