**Affirmed:**

<p>Checking this checkbox affirms, the applicant has consulted reliable analyses (material safety data sheets or information obtained from the coating manufacturer) of the coatings that are used in this facility and have determined that we do not spray apply target HAP containing coatings as defined in 40 CFR 63.11180. Furthermore, I have verified that none of the coatings mixed prior to application contain target HAP as spray-applied, based on</p>

the definition of target HAP containing coatings. I certify, under penalty of law, to the truth, accuracy, and completeness of the information provided in this petition. If circumstances change such that we intend to spray apply target HAP containing coatings in surface coating operations, we will submit the initial notification required by 40 CFR 63.11175 and will comply with the requirements of 40 CFR Part 63 Subpart HHHHHH (the National Emission Standard for Hazardous Air Pollutants: Paint Stripping and Miscellaneous Surface Coating Operations at Area Sources). Spray application of target HAP containing coatings in a surface coating operation voids any exemption that might be granted as a result of this petition. If your petition is approved, the applicant will keep a copy of the approval on site at the facility until there is a change in the operation(s) to include spray application of target HAP containing coatings, or discontinue motor vehicle and mobile equipment surface coating operations.

True

I hereby certify that I am fully authorized to submit this application and that all information contained in this application, including any attachments hereto, is true, accurate, and complete. I further acknowledge that making a false written statement in or submitting a written instrument that contains false statements or false information to a State Agency is punishable under 11 Del. C. § 1233 and 11 Del. C. § 877.
