**Re: Delaware Coastal Management Program Consistency Review for the Construction of one single-family home for Affordable Homeownership in Dover, DE built by Central Delaware Habitat for Humanity.**

AZ-RI Consultants is completing an Environmental Review on behalf of Central Delaware Habitat For Humanity (CDHFH) for their Affordable Homeownership in Dover project associated with CPF Grant #B-23-CP-DE-0349.

The full project will include construction of 8 scattered site homes for affordable homeownership within the City of Dover limits in Kent County. All homes will be targeted to low-income Kent County residents making at or below 60% of area median income. This project will stabilize 8 households by providing the opportunity to build and purchase an affordable home.

This request is associated with one single-family home that will be constructed at **106 & 108 Willis Road, Dover, DE 19901**. The Subject Property is currently a vacant, grass-covered lot.

Construction of each home will take place entirely within the property lines of each lot. All lots are on public water and sewer. CDHFH will be installing hookups for utilities towards the end of the construction process for each home. CDHFH may also install or repair sidewalks on the properties, in accordance with housing codes.

AZ-RI has reviewed the above-reference project and has determined it to be consistent with the Delaware Coastal Management Program. This determination is based upon the following findings: the project is located in an existing neighborhood in the City of Dover, DE and will connect to municipal sewer and water.

We are requesting your review and concurrence with our determination for this new construction project pursuant to Coastal Zone Management Act regulations (15 CFR-Part 930). We look forward to working with your office during this consultation. Please do not hesitate to reach out with any questions.

Sincerely,
